

# NEXTGEN FIRE RESCUE TECH SUMMIT

BRINGING TECHNOLOGY TO THE FOREFRONT

WEDNESDAY, APRIL 9, 2025 | INDIANAPOLIS, IN

FDIC International is pleased to announce a new one-day summit the day before the Exhibits open! With increasing complexities and challenges to modern firefighting, it is critical to come together with peers to explore solutions, stay current on the latest innovations, and see what's next.

**The NextGen Fire Rescue Tech Summit** will provide a platform for critical discussion, idea exchange, and actionable insights to enhance firefighting operations and see firsthand technology implementation in live training scenarios offsite at the Indianapolis Fire Department Training Center.

## CRITICAL AREAS OF FOCUS

- Connectivity Solutions
- Robotics, Drones, and Autonomous Systems
- Wearables, Tracking, and Biometrics
- Common Operating Platforms (COP)
- New Technology Adoption

## LIVE FIRE DEMONSTRATIONS

In the afternoon, attendees will experience and watch firsthand technology solutions demonstrated and implemented in controlled live fire training scenarios, including:

- Structure Fire
- Search and Rescue
- Victim Removal
- Patient Assessment and Treatment

## SUMMIT AGENDA

### Morning:

- Peer-led roundtables, panels, and discussions
- Focus on tech implementation and lessons learned
- Identify future tech needs for safety and response

### Afternoon:

- Transport to Indianapolis FD for live fire training grounds
- Partners showcase tech solutions in live scenarios
- Rotate through stations with Q&A in small groups

### Early Evening:

- Networking reception for one-on-one discussions

# NEXTGEN FIRE RESCUE TECH SUMMIT

BRINGING TECHNOLOGY TO THE FOREFRONT

## AFTERNOON LIVE TRAINING DEMONSTRATION WILL TAKE PLACE AT THE INDIANAPOLIS TRAINING ACADEMY.

The FDIC International team will provide sponsors with details on the training scenarios and work with them to determine which one best implements their technology. The FDIC team will coordinate and run the training scenario, while the sponsor will ensure the technology is up and running in the field and ready for their demonstration.

### About Indianapolis Training Academy:

The Indianapolis Training Academy consists of a multi-story drill tower with interior and exterior stairs, standpipe connections, elevator shafts, confined spaces, and roof ventilation props. Attached to the tower is a 2 story residential style burn building with multiple rooms and stairs. The site also has a separate Class A, 2 story burn building with multiple windows and doors for live fire, search and rescue, ladder work and emergency escape drills. Most recently the academy has added 2 complete flashover containers, a small 2 bedroom wood frame residential house and several vehicle extrication areas. There are also large open spaces that can accommodate apparatus, utility vehicles as well as unmanned vehicle driving and operations. If you'd like to see Indianapolis Training Academy, please take a look at this video: [https://youtu.be/\\_y3Nln2gpQY?feature=shared](https://youtu.be/_y3Nln2gpQY?feature=shared)

### POTENTIAL IFD TRAINING ACADEMY SCENARIOS INCLUDE\*:

Structural Fire Attack  
Search and Rescue  
High-rise Operations  
Roof Operations  
High Angle Rope Rescue  
Confined Space Rescue  
Apparatus Driving and Positioning

Apparatus Pumping  
Apparatus Ladder Operations  
Vehicle Extrication  
Heavy Lifting and Shoring  
Hazardous Materials Drills  
Large Area Search  
Incident Command

*\*Final scenarios will be determined by the FDIC International team.*
